At Kansai we believe in transforming the decorative experience by creating professional services and high performing products to suit the needs of our audience. Our comprehensive range of products are used extensively for the interiors and exteriors of all types of buildings, structures and surfaces. Besides having a diverse range of colours and textures, our products are also environmentally-friendly with many of them being water-borne and high-solid low VOC paints. We believe in continuous improvement and will always strive to deliver something that is aesthetically pleasing as well as durable and protective. Green is not just a colour to us, we truly believe in caring for the environment and demonstrate this in all of our products and processes.
Now choose from over 1,500 inspired colours

To explore more about each hue, pick from one of the inspired colour cards at any Kansai store to browse suggestions on colour palettes and themes.

All Kansai products are available in a range of standard colours and can be tinted upon request into any inspired colour.

To select the right colour, simply collect a paint swatch from our store, pick from the Inspired Colour fan deck or request a one-on-one consultation with our colour design team.

Each colour is arranged into families of Reds, Oranges, Yellows, Greens, Blues, Purples and Neutrals to help you find the right colour easily.

The Kansai Inspired Colour System offers a comprehensive selection of 1,470 brilliant colours and 108 essential colours carefully selected by our Colour Design team.
